

Sustainable Development Goals (SDGs)

With the rapid change in environment due to global warming and increasing inequality across the world, it has been recognized that growth is not enough to ensure the welfare of people. Sustainable Development Goals (SDGs) is a universal agenda to all countries. Sustainable Development Goals are a collection of 17 global goals which were developed after intensive public consultation and engagement with national government, civil societies and stakeholders around the world. These 17 Goals include areas such as climate change, economic inequality, innovation, sustainable consumption, peace and justice, among other priorities. The 17 SDGs comprise of 169 associated targets, which are interconnected in nature. The targets for each goal are accompanied with indicators that focus on measurable outcomes. Each target has defined monitoring indicators to measure progress towards reaching the target.

SDG India Index

With the objective of measuring the progress of SDGs and develop competitiveness among States and UTs, NITI Aayog has released three versions of SDG India Index till now. Based on the results of the SDG India Index, States and Union Territories (UTs) have been classified into 4 categories: Achiever, Front runner, Performer and Aspirant, where the 'Achiever' category represents the highest rank and the 'Aspirant' category represents the lowest rank.

SDG India Index 1.0: The first version of the Index i.e. SDG India Index Baseline Report, 2018 (SDG India Index 1.0) was released in December, 2018. The Index tracks the progress of all the States and UTs on a set of 62 indicators covering 13 SDGs (leaving out Goals 12, 13, 14 and 17, mainly because of paucity of data). As per the report, Rajasthan has been ranked as 'Performer' with 59 composite score in SDG India Index 1.0. The all India score stood at 57.

SDG India Index 2.0: It is the second version of the Index which builds upon its first version. It was launched in December, 2019. The Index has been constructed using 100 indicators that covers 54 targets across 16 goals barring Goal 17 due to the fact that the data for SDG 17 are not available. On the lines of the first version of the SDG India Index, States and UTs have been classified into 4 categories i.e. Achiever, Front runner, Performer and Aspirant in SDG India Index 2.0. As per the report, Rajasthan has been ranked as 'Performer' on Composite SDG India Index 2.0 with the Index Score of 57 whereas all India score stood at 60.

SDG India Index 3.0: SDG India Index 3.0 launched in June, 2021 in which composite score for India improved to 66 in 2020-21 of 60 in 2019-20, indicating that the country overall has progressed forward in its journey towards achieving the SDGs. Rajasthan improved its overall SDG score from 57 in 2019-20 to 60 in 2020-21, albeit retaining its position in the Performer category. 16 SDGs that were quantitatively assessed between 2019-2020 and 2020-21, Rajasthan shows maximum improvement in Goal 7 (Affordable and Clean Energy), achieving 100 score.

Rajasthan SDGs Index

The SDG Index of Rajasthan aims to measure the performance of districts on the SDG's. Additionally, SDG Index can be broken down into goal level score in order to help understand what goals have been achieved and where more effort is needed. NITI Aayog's Methodology was used in computing these index and set of indicators chosen as per availability of district wise data in the state. Districts have been also classified into 4 categories: Achiever, Front runner, Performer and Aspirant, where the 'Achiever' category represents the highest rank and the 'Aspirant' category represents the lowest rank.

Rajasthan SDGs Index 1.0:

The SDG Index has been developed using 31 indicators across 12 goals. The data is retrieved from publicly available sources for these identified indicators. These data were aggregated to develop individual SDG score for each district in Rajasthan, which is then used to develop the Sustainable development goals index for Rajasthan. For each goal, the SDG score ranges between 0 and 100, where 0 being the worst among the group and 100 signifying that all the targets for that goal/all goals have been achieved. District wise Status of composite scores and ranks of Rajasthan SDG Index 1.0 and 2.0 is available at annexure I.

Rajasthan SDGs Index 2.0:

The SDG Index has been developed using 55 indicators across 13 goals. The data is retrieved from publicly available sources for these identified indicators. These data has been aggregated to develop individual SDG score for each district in Rajasthan, which is then used to develop the Sustainable development goals index for Rajasthan. For each goal, the SDG score ranges between 0 and 100, where 0 being the worst among the group and 100 signifying that all the targets for that goal/all goals have been achieved.

Rajasthan SDGs Index 3.0:

This Rajasthan SDG Index has been calculated on 75 indicators covering 14 goals. Data of these indicators is collected from various departmental information/Data and publicly available sources. These data has been aggregated to calculate individual SDG score for each district in Rajasthan, which is then used to develop the C o m p o s i t e Sustainable development goals Index for Rajasthan. For each goal, the SDG score ranges between 0 and 100, where 0 being the worst among the group and 100 signifying that all the targets for that goal/all goals have been achieved. District wise Rajasthan SDG Index 3.0 score and ranks are given in the table 1. District wise Status of scores and ranks of Rajasthan SDG Index 1.0, 2.0 and 3.0 are given at Annexure-1.

Table No. 1: Rajasthan SDGs Index 3.0 composite scores and Ranks

District	Score	Rank
Jaipur	64.88	1
Nagaur	63.97	2
Jhunjhunu	63.42	3
Sikar	62.57	4
Kota	61.90	5
Ajmer	61.12	6
Jodhpur	59.33	7
Ganganagar	58.87	8
Bhilwara	58.85	9
Churu	58.61	10
Udaipur	58.23	11
Pali	57.89	12
Hanumangarh	57.34	13
Karauli	56.63	14
Bikaner	55.77	15
Alwar	55.60	16
Chittorgarh	55.32	17
Dausa	55.01	18
Jhalawar	54.69	19
Tonk	54.60	20
Bundi	53.84	21
Dungarpur	53.82	22
Banswara	53.72	23
Jalore	53.41	24
S.Madhopur	53.38	25
Rajsamand	53.10	26
Dholpur	52.43	27
Bharatpur	52.04	28
Sirohi	51.52	29
Pratapgarh	51.36	30
Barmer	51.25	31
Jaisalmer	50.17	32
Baran	46.99	33
Rajasthan	57.58	

Performance of Districts on Rajasthan SDGs Index 3.0

	Achiever – SDI score is equal to 100
	Front Runner – SDI score is less than 100 but greater than or equal to 65
	Performer – SDI score is less than 65 but greater than or equal to 50
	Aspirant – SDI score is less than 50

Districts have been classified into 4 categories: Achiever, Front runner, Performer and Aspirant, where the 'Achiever' category represents the highest rank and the 'Aspirant' category represents the lowest rank. Details are given in the table 2.

Table No. 2 : Category wise classification of Districts

Aspirant (Score is less than 50)	Performer (Score is less than 65 but greater than or equal to 50)	Front Runner (Score is less than 100 but greater than or equal to 65)	Achiever (Score is equal to 100)
Baran	Ajmer, Alwar, Banswara, Barmer, Bharatpur, Bhilwara, Bikaner, Bundi, Chittorgarh, Churu, Dausa, Dhaulpur, Dungarpur, Ganganagar, Hanumangarh, Jaipur, Jaisalmer, Jalore, Jhalawar, Jhunjhunu, Jodhpur, Karauli, Kota, Nagaur, Pali, Pratapgarh, Rajasmand, S.Madhopur, Sikar, Sirohi, Tonk, Udaipur	-	-

Methodology

The methodology used to calculate SDG Index is as follows:

- Indicator selection and data collection:** Based on the data availability, 75 indicators are selected for developing the Sustainable Development Goals Rajasthan Index. Data collected on these indicators from various government departments, Publications, Reports, Portals/ Dashboard of Government of Rajasthan and India. The list of these indicators is given in table 3.

Table No. 3 Proposed Indicators for Rajasthan SDG Index 3.0

S.No.	Goal No.	Details of Indicator used in Rajasthan SDG Index 2022 (3.0) (75)
1.	Goal 1	BPL population below poverty line as per BPL Census rural
2.		Head count ratio as per the Multidimensional Poverty Index (%)
3.		Households with any usual member covered Under health Insurance/ Financing Scheme (%)
4.		Persons provided employment as a percentage of persons who demanded employment under Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)
5.		Eligible JSY beneficiaries out of the total deliveries happening in public institutions and private accredited institutions (%)
6.		Percentage of households living in katcha houses
7.		Number of homeless households per 10,000 households

S.No.	Goal No.	Details of Indicator used in Rajasthan SDG Index 2022 (3.0) (75)
8.	Goal 2	Percentage of children under five years who are underweight
9.		Percentage of children under five years who are stunted
10.		Percentage of pregnant women aged 15-49 years who are anaemic
11.		Percentage of adolescents girls aged 15–19 years who are anaemic
12.		Rice, wheat & Course Cereals produced annually per unit area (Kg/Ha)
13.		Gross Value Added (constant prices) in agriculture per worker (in Lakhs/worker)
14.		Percentage of Net Area Sown to total culturable Land
15.	Goal 3	Under 5 mortality Rate (per 1,000 live births)
16.		Percentage of children 9-11 month fully immunized
17.		Total case notification rate of Tuberculosis per 1,00,000 population
18.		Suicide rate (per 1,00,000 population)
19.		Death rate due to road traffic accidents (per 1,00,000 population)
20.		Percentage of institutional deliveries out of the total deliveries reported
21.		Percentage of currently married women aged 15-49 years who use any modern method of family planning
22.		Population Served per Medical Institution
23.		Mothers who had at least 4 antenatal care visits (%)
24.	Goal 4	Adjusted Net Enrolment Ratio (ANER) in elementary education (class 1-8)
25.		Dropout rate at secondary level (class 9-10)
26.		Gross Enrolment Ratio (GER) in higher secondary (class 11-12)
27.		Percentage of schools with electricity Facility
28.		Percentage of schools with drinking water Facility
29.		Percentage of trained teachers at secondary level (class 9-10)
30.		Pupil Teacher Ratio (PTR) at secondary level (class 9-10)
31.		No of Secondary and Senior Secondary School per 1 lakh population
32.	Goal 5	Rate of crimes against women per 1,00,000 female population
33.		Sex ratio at birth (Born in 2020)
34.		Per lakh women who have experienced cruelty/physical violence by husband or his relatives during the year
35.		Female Work participation rate
36.		Operational land holding gender wise (percentage of female land holdings)
37.		Rate of Dowry cases per 1 lakh Female population
38.		Women of Age 15-49 who are literate
39.	Goal 6	Percentage of rural population getting safe and adequate drinking water within premises through Pipe Water Supply (PWS)
40.		Percentage of population having improved source of drinking water
41.		Percentage of Households using improved sanitation facility (%)
42.		Percentage of schools with separate toilet facility for girls
43.		Percentage of ground water withdrawal against availability
44.		Percentage of blocks/mandals/taluka over-exploited

S.No.	Goal No.	Details of Indicator used in Rajasthan SDG Index 2022 (3.0) (75)
45.		Percentage of MSW Processed to the total MSW Generated (SBM-U)
46.	Goal 7	Percentage of households electrified
47.		Households using clean fuel for cooking
48.	Goal 8	Annual growth rate of DDP (constant prices) per capita
49.		Workforce participation rate (2011)
50.		Percentage of households covered with a bank account under PMJDY against target
51.		Number of functioning branches of commercial banks per 1,00,000 population
52.		Automated Teller Machines (ATMs) per 1,00,000 population
53.		Percentage of women account holders in PMJDY
54.	Goal 9	Percentage of targeted habitations connected by all-weather roads under Pradhan Mantri Gram Sadak Yojana (PMGSY)
55.		Percentage Share of GVA in manufacturing to total GVA (current prices)
56.		% of Villages connected by Road to Total Villages
57.		Road Length (Per Square KM)
58.		Per Lakh Business Entity Registered in Business Registration Portal
59.	Goal 10	Rate of total crimes against SCs (per 1,00,000 population)
60.		Rate of total crimes against STs (per 1,00,000 population)
61.	Goal 11	Percentage of urban households living in katcha houses
62.		Deaths due to road accidents in urban areas (per 1,00,000 population)
63.		Urban households living in slums (%)
64.	Goal 12	Percentage use of nitrogenous fertilizer out of total N,P,K, (Nitrogen, Phosphorous, Potassium)
65.	Goal 15	Forest cover as a percentage of total geographical area
66.		Percentage of area covered under afforestation schemes to the total geographical area
67.		Number of cases reg. under Wildlife Protection Act (1972) to 1000 sq km Protected Area
68.	Goal 16	Murders per 1,00,000 population
69.		Cognizable crimes against children per 1,00,000 population
70.		Number of victims of human trafficking per 10 lakh population
71.		Number of missing children per 1,00,000 child population
72.		Children under age 5 years whose birth was registered with the civil authority (%)
73.		Percentage of population covered under Aadhaar
74.		Percentage of Population Covered under Jan-Aadhar
75.		Deaths in the last 3 years registered with the civil authority (%)

2. **Target Setting:** Use the targets set for each indicator in calculating the Sustainable Development Goals Index on the lines of NITI Aayog. Basically, target has been decided as laid down points:
- As per SDG India Index 3.0
 - As per SDG targets decided by GoI/NITI Aayog
 - Target decided by United Nations Agencies
 - Average of Best 3 Performance Districts
 - Best performance District Value

The details on the targets used are presented at **Annexure – II**.

3. **Normalization:** Since the indicators used in the construction of index have different units of measurement, the units are normalized in order to be able to compare different districts based on a variety of indicators. Normalisation transforms all data into dimensionless numbers. Normalization of the indicators is done using the formula used by NITI Aayog in the calculation of SDG India Index. For each indicator the normalised values range from 0 to 100. An indicator value of 100 means that the district has achieved the target in terms of that indicator. If a district scores more than 100 on an indicator i.e. it is doing better than the target set, then its value is capped at 100 the normalised. Indicator and district wise normalized capped score are presented at **Annexure – III**.

For positive indicators the normalised value of an indicator is calculated as follows:

$$Z = \frac{x - \min(x)}{T(x) - \min(x)} \times 100$$

Where:

Z is the normalised score for the indicator

x is the indicator value in raw data

min (x) is the minimum observed value of the indicator in the dataset

T (x) is the target value of the indicator

For negative indicators the normalised value of an indicator is calculated as follows:

$$Z = [1 - \frac{x - T(x)}{\max(x) - T(x)}] \times 100$$

Where:

Z is the normalised score for the indicator

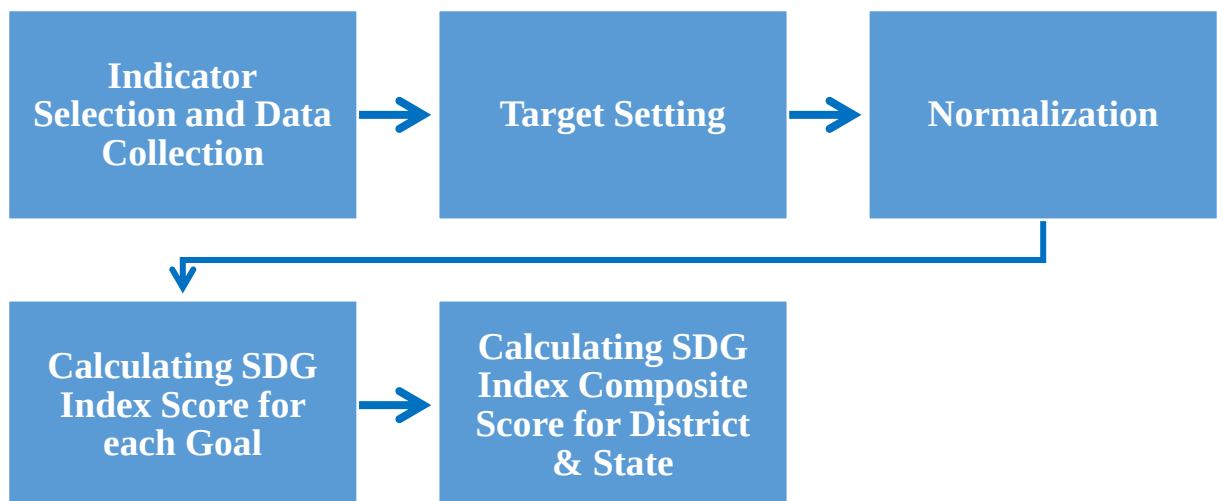

x is the indicator value in raw data

max (x) is the maximum observed value of the indicator in the dataset

T (x) is the target value of the indicator

4. **Weighting:** Each indicator is assigned a weight, indicating the importance it has in influencing SDGs. Here, each indicator has been assigned equal weight. This is based on the assumption that each indicator has equal value for sustainable development.
5. **Calculating SDI score for each goal:** For each goal, the index value is calculated for each district by taking the arithmetic mean of the normalized values of all the indicators within a goal. The values for SDG score range in between 0 to 100 with 0 being the worst performer in the group and 100 being the achiever of the target. The details on goal wise scores for each district is presented at **Annexure – IV**.
6. **Calculating SDG Index score for a district:** Each goal is assigned an equal weight in calculating the SDI score for the district. For each goal, the SDG score range in between 0 to 100 with 0 being the worst among the group and 100 meaning that all the targets under that goal have been achieved. The list of goal wise indicators used in the preparation of SDI is already given in Table No. 3. The goal wise top 3 and bottom 3 districts are presented at **Annexure – V**.

7. Flow chart

Limitations of the Index

While Rajasthan SDG Index 3.0 is a useful instrument to judge the progress of the Districts in adopting and implementing the SDG agenda, this Index have the following limitations:

- The Index does not measure indicators of all SDGs owing to the unavailability of suitable data at the District level.
- The indicator set for Rajasthan SDG Index 3.0 is larger (75 indicators) compared to Rajasthan SDG Index 1.0 (31 indicators), and 2.0 (55 Indicators), therefore these indices are strictly not Comparable. Further, given the comprehensiveness of the agenda, benchmarks will undergo continual change to meet the aspirations of SDGs.

District wise Status of scores and ranks of Rajasthan SDG Index 1.0, 2.0 and 3.0

District	Index 2020 (1.0)		Index 2021 (2.0)		Index 2022 (3.0)	
	Score	Rank	Score	Rank	Score	Rank
Jaipur	69.36	2	56.24	9	64.88	1
