## Sustainable development Goals (SDGs) Status Report 2024

**Economics and Statistics Department  
District Statistics office  
Rajasthan**

District Collector  
Pratapgarh

## PREFACE

The Sustainable Development Goals (SDG'S) are part of a universal agenda to end poverty, protect the planet and ensure that all people enjoy peace and prosperity. On 1st January, 2016, the World officially began implementation of the 2030 Agenda for Sustainable Development which includes 17 Goals and 169 Targets. The Government of Rajasthan is taking keen interest and prioritizing to align with the SDG framework, thereby prioritizing development actions and challenges of the State. The SDG framework shifts the focus from mere expenditure to measurement of larger outcomes. In this endeavor. Our district has formulated the District Status Report under District Indicator Framework having 226 district level indicators, in consultation with all Departments. This should help our district better monitor the achievement of Sustainable Development Goals in the district and will collectively strengthen our State. I am hopeful the document will serve as a valuable tool to measure the performance of the district in key indicators which will help to streamline and track Rajasthan's progress as we strive collectively in true spirit.

PRATAPGARH  
April, 2024

  
**DR. ANJALI RAJORIYA**  
District Collector

**DR. ANJALI RAJORIYA**

District collector & Chairperson  
District Level SDGs Implementation &  
Monitoring Committee, Pratapgarh (Raj.)

Target 11.b: By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels.					
Indicator not yet evolved					
Target 11.c: Support least developed countries, including through financial and technical assistance, in building sustainable and resilient buildings utilizing local materials.					

Indicator No.	Department	Detail	Periodicity	Data
<b>Goal 12: Ensure sustainable consumption and production patterns</b>				
Target 12.1: Implement the 10-Year Framework of Programmes on Sustainable Consumption and Production Patterns, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries.				
Indicator not yet evolved				
Target 12.2: By 2030, achieve the sustainable management and efficient use of natural resources.				
Indicator not yet evolved				
Target 12.3: By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses.

Target 12.6: Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle.				
Indicator not yet evolved				
Target 12.7: Promote public procurement practices that are sustainable, in accordance with national policies and priorities.				
Indicator not yet evolved				
Target 12.8: By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature.				
Indicator not yet evolved				
Target 12.a: Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production.				
Indicator not yet evolved				
Target 12.b: Develop and implement tools to monitor sustainable development impacts for sustainable tourism that creates jobs and promotes local culture and products.				
Indicator not yet evolved				

Indicator No.	Department	Detail	Periodicity	Data
Target 12.c: Rationalize inefficient fossil-fuel subsidies that encourage wasteful consumption by removing market distortions, in accordance with national circumstances, including by restructuring taxation and phasing out those harmful subsidies, where they exist, to reflect their environmental impacts, taking fully into account the specific needs and conditions of developing countries and minimizing the possible adverse impacts on their development in a manner that protects the poor and the affected communities.				
<b>Goal 13: Take urgent action to combat climate change and its impacts</b>				
Target 13.1: Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries.				
13.1.2	Disaster Management & Relief	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to Indicator 1.5.1 and 11.5.1). Source:- Disaster Management & Relief , Periodicity: Annual	2015	0

Target 13.2: Integrate climate change measures into national policies, strategies and planning.				
Indicator not yet evolved				
Target 13.3: Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning.				
Indicator not yet evolved				
Target 13.a: Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible.				
Indicator not yet evolved				
Target 13.b: Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities.				
<b>Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development</b>				
Target 14.1: By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution.				
14.1.2	Agriculture	Percentage use of nitrogenous fertilizer to total fertilizer (N,P & K). Source:- Agriculture department , Periodicity: Annual	2015-16	60

			2023-24	63
Target 14.2: By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans.				
Not Applicable				
Target 14.3: Minimize and address the impacts of ocean acidification, including through enhanced scientific cooperation at all levels.				
Not Applicable				
Target 14.4: By 2020, effectively regulate harvesting and end overfishing, illegal, unreported and unregulated fishing and destructive fishing practices and implement science-based management plans, in order to restore fish stocks in the shortest time feasible, at least to levels that can produce maximum sustainable yield as determined by their biological characteristics.

Indicator No.	Department	Detail	Periodicity	Data
Target 14.5: By 2020, conserve at least 10 per cent of coastal and marine areas, consistent with national and international law and based on the best available scientific information.				
Not Applicable				
Target 14.6: By 2020, prohibit certain forms of fisheries subsidies which contribute to overcapacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation.				
Not Applicable				
Target 14.7: By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism.				
Not Applicable				
Target 14.a: Increase scientific knowledge, develop research capacity and transfer marine technology, taking into account the Intergovernmental Oceanographic Commission Criteria and Guidelines on the Transfer of Marine Technology, in order to improve ocean health and to enhance the contribution of marine biodiversity to the development of developing countries, in particular small island developing States and least developed countries.				
Not Applicable				
Target 14.b: Provide access for small-scale artisanal fishers to marine resources and markets				
Not Applicable				
Target 14.c: Enhance the conservation and sustainable use of oceans and their resources by implementing international law as reflected in the United Nations Convention on the Law of the Sea, which provides the legal framework for the conservation and sustainable use of oceans and their resources, as recalled in paragraph 158 of "The future we want".				
<b>Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss</b>				
Target 15.1: By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and dry lands, in line with obligations under international agreement.

<b>Target 16.a: Strengthen relevant national institutions, including through international cooperation, for building capacity at all levels, in particular in developing countries, to prevent violence and combat terrorism and crime.</b>				
Indicator not yet evolved				
<b>Target 16.b: Promote and enforce non-discriminatory laws and policies for sustainable development.</b>				
<b>Goal 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development</b>				
<b>Target 17.1: Strengthen domestic resource mobilization, including through international support to developing countries, to improve domestic capacity for tax and other revenue collection.</b>				
Indicator not yet evolved				
<b>Target 17.2: Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance (ODA/GNI) to developing countries and 0.15 to 0.20 per cent of ODA/GNI to least developed countries; ODA providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed countries.</b>				
Indicator not yet evolved				
<b>Target 17.3: Mobilize additional financial resources for developing countries from multiple sources.</b>				
Indicator not yet evolved				
<b>Target 17.4: Assist developing countries in attaining long-term debt sustainability through coordinated policies aimed at fostering debt financing, debt relief and debt restructuring, as appropriate, and address the external debt of highly indebted poor countries to reduce debt distress.</b>				
Indicator not yet evolved				
<b>Target 17.5: Adopt and implement investment promotion regimes for least developed countries.</b>				
Indicator not yet evolved				
<b>Target 17.6: Enhance North-South, South-South and triangular regional and international cooperation on and access to science, technology and innovation and enhance knowledge-sharing on mutually agreed terms, including through improved coordination among existing mechanisms, in particular at the United Nations level, and through a global technology facilitation mechanism.</b>				
Indicator not yet evolved				
<b>Target 17.7: Promote the development, transfer, dissemination and diffusion of environmentally sound technologies to developing countries on favourable terms, including on concessional and preferential terms, as mutually agreed.</b>				
Indicator not yet evolved				
<b>Target 17.8: Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular information and communications technology.</b>				
Indicator not yet evolved				
<b>Target 17.9: Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the Sustainable Development Goals, including through North- South, South-South and triangular cooperation.</b>				
Indicator not yet evolved				
<b>Target 17.10: Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda.</b>				
Indicator not yet evolved				
<b>Target 17.11: Significantly increase the exports of developing countries, in particular with a view to doubling the least developed countries' share of global exports by 2020.</b>				
Indicator not yet evolved				
<b>Target 17.12: Realize timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with World Trade Organization decisions, including by ensuring that preferential rules of origin applicable to imports from least developed countries are transparent and simple, and contribute to facilitating market access.</b>				
Indicator not yet evolved				
<b>Target 17.13: Enhance global macroeconomic stability, including through policy coordination and policy coherence.</b>				
Indicator not yet evolved				
<b>Target 17.14: Enhance policy coherence for sustainable development.</b>				
Indicator not yet evolved				

Indicator No.	Department	Detail	Periodicity	Data
Target 17.15: Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development.				
Indicator not yet evolved				
Target 17.16: Enhance the Global Partnership for Sustainable Development, complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology and financial resources, to support the achievement of the Sustainable Development Goals in all countries, in particular developing countries.				
17.16.1	DSO	District having a Monitoring Framework that supports the achievement of the sustainable development goals.	2023-24	YES
Target 17.17: Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships.				
Indicator not yet evolved				
Target 17.18: By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts.				
Indicator not yet evolved				
Target 17.19: By 2030, build on existing initiatives to develop measurements of progress on sustainable development that complement gross domestic product, and support statistical capacity-building in developing countries.
